Місія в Україну

міжнародний благодійний фонд

October 30, 2026

To Whom It May Concern:

I am pleased to recommend Zita Kalandarishvili, who worked with the International Charity Foundation "Mission to Ukraine" for six years as an Occupational Therapist. During her time with our organization, Zita demonstrated professionalism, dedication, and a strong commitment to supporting children and their families.

As part of our rehabilitation team, Zita provided occupational therapy services in an outpatient rehabilitation setting and conducted home evaluations to identify barriers affecting children's participation and independence in their daily activities. She worked collaboratively with other members of the rehabilitation team and with families to support individualized goals and carry therapeutic strategies into the home environment.

Zita also played an important role in our parent education and home program initiatives. She provided families with practical recommendations and strategies that could be incorporated into everyday routines and led efforts related to home evaluation and modification to create environments that better supported each child's needs.

Throughout her six years with our organization, Zita was a reliable and compassionate member of our team. She demonstrated strong teamwork and leadership skills, took initiative in her responsibilities, and contributed actively to the development and implementation of our rehabilitation programs. She consistently approached her work with dedication, creativity, and a strong sense of responsibility toward the children and families we served.

I am grateful for Zita's contribution to our organization and the families we served. I am pleased to recommend her as she continues her professional education and career in occupational therapy in the United States.

Sincerely,

Irena Venglovska
Director, Ukraine
